# My Body

## Essential Question

*How can a form I fill out help me remember information?*

## Big Idea

*Filling out a form helps me to remember what I'm studying*

## Teacher Preparation

- Talk with grade level team so you use their terminology (i.e., is it 'jawbone' or 'mandible?').
- If using a template, place it where students can access it.
- Have list of human body websites on internet start page.

## Assessment Strategies

- Followed directions
- Completed project
- Worked well with a partner
- Joined class conversations
- [tried to] solve own problems
- Higher order thinking: analysis, evaluation, synthesis

## Steps

**Time required:** 45 minutes  
**Grade level:** Kindergarten-3<sup>rd</sup>

\_\_\_\_\_ For this lesson, students will explore the human body by labeling its parts (based on classroom discussion) on a digital worksheet. Alternatively, you might want them to label a life cycle, parts of a story, or anything else being studied in the classroom.

\_\_\_\_\_ Introduce the Human Body unit with [this BrainPop video](#) and answer questions at the end as a group. If you don't have a subscription to BrainPop, try one of these other [human body websites](#).

\_\_\_\_\_ This lesson provides three approaches:

- *Fill-in-the-blank template*
- *Label student picture*
- *Label an avatar as though it was human*

## Fill-in-the-blank Template

\_\_\_\_\_ If you have desktop computers, you might use KidPix, Paint, or Google Draw. You can even use a word processing program like Google Docs or MS Word.

\_\_\_\_\_ If you're a Chromebook school, try these:

- [ABCYa Paint](#)
- [SumoPaint](#)
